Procurement ready

Bank details collected only after approval

1

Build a verified profile for procurement conversations and sourcing opportunities.

2

Share crop, land, irrigation, and location data through a structured onboarding flow.

3

Keep documents and communication organized for faster admin review.

4

Move toward bank and payout setup only after profile approval.

How onboarding works

1

Submit farmer profile and location details.

2

Upload Aadhaar and optional land proof.

3

Admin reviews land, crop, and eligibility information.

4

Approved farmers receive next-step bank and procurement instructions.

5

Sourcing activity is coordinated through verified records.
